

Environmental Sustainability

Q: What does environmental sustainability mean to us?

A: Growing in a way which enables us to tread lightly on the earth, whilst also inspiring others to reduce their footprint.

Our Carbon Footprint - 2018/19 at a glance

Impact	Consumption	Carbon
Accommodation	405 hotel room nights	8 tonnes CO ₂ e
Light and Sound	1,960 kWh	602 kg CO ₂ e
Business Travel	31,361 km	6 tonnes CO ₂ e
Personnel Travel	188,448 km	29 tonnes CO ₂ e
Freight Travel	27,380 km	2 tonnes CO ₂ e
	Emissions Total	45 tonnes CO₂e

Environmental Sustainability

In 2019/20 we will:

Minimise the impacts of our activities
Engage with environmental issues
Encourage others to engage with these issues

People

Review baseline measures taken in 2018/19

Review target, set goals, utilise online tools

Share learning with partners

Invest in carbon offset projects which could make our activities carbon neutral

Publish our environmental priorities on our website

Monitor delivery of an environmental action plan

Share our strategy with our team with recommended environmental measures

Promote environmentally sustainable methods for audiences to access productions

Communicate our environmental aims to audiences

Our Activities

Hold meetings remotely where possible using conference calls

Use public transport and vehicle sharing

Touring - plan the most effective travel pattern

Ask venues to share their environmental policies with us

Use online marketing methods

Include an environmental 'ask' on written materials

Minimise printing

Resources

Maximise our use of digital technology in productions

Re-use costumes, sets and materials

Request environmental policies when ordering from major suppliers

Build relationships with recycle and re-use organisations

Minimise energy use wherever possible: low energy bulbs, rechargeable batteries

Measure any waste produced from projects and performance runs
